The Applicant must submit proof that international application PCT/FR99/02486 was co-pending with the present application in response to the instant Office action (MPEP § 1895).

The abstract of the disclosure is objected to because of the inclusion of legal phraseology involving "means" (line 3, two occurrences). Correction is required (MPEP § 608.01(b)).

The disclosure is objected to because of the following informalities: The Applicant must indicate whether the prior PCT international application was published under PCT Article 21(2) in English in the first sentence of the specification (MPEP § 1895). On page 1, line 16, the French patent number should be --2784287-- rather than "98/12834". On page 6, line 4, "a" should be deleted; on line 7, "polyhema" should be replaced by --polyHEMA--. On page 8, last line, "6c" should apparently be --7c--; similar problems were noted at the top of page 9. Appropriate correction is required.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 3, "the free ends" and "said bridge" lack proper antecedent bases. Other errors were noted.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Attention is directed to the drawings of US 5,370,607; US 2002/0002403 A1; FR 644591; and CH 43543.
